This series of 73 letters written by Albert Uriah Platts was found in the attic of the 1769 home of Ms Deborah Kelly of North Branford who was kind enough to let the transcriber copy them. They are of immense interest as the writer was involved in many of the major Civil War battles between 1862 and 1865, including Chancellorsville, Gettysburg, The Siege of Atlanta, Sherman's March to the Sea and others. The letters are transcribed as written with misspellings, incorrect or no punctuation and random capitalization. The writer capitalizes every word beginning with s. The letters are relatively easy to read but, of course, there are words and phrases which are illegible. Where a word is missing I have replaced it with --. Any note or interpolated words are enclosed within parentheses []. All but two of the letters were addressed to Mr. Asa W. Platts, Center Brook, Connecticut. Centerbrook is a part of Essex, CT. The other two are addressed to Albert Platts' cousin, Charles C. Bushnell.

Nearly all of the letters are in yellow envelopes measuring 5¼ X 3 inches with 3¢ postage stamps on them.

Albert Uriah Platts was born in Saybrook Connecticut in 1842 to Asa W. Platts and Julia A. Jones. In the 1850 Census he is listed as living in Saybrook. He enlisted in Co. C, 20th Regiment, Connecticut Volunteer Infantry on September 8, 1862 and was mustered out on June 13, 1865. He married Clara W. Palmer of North Branford on February 22, 1877. Albert was 34 and Clara was 30 at the time. Albert died of heart disease on August 3, 1914 and is buried in The North Branford Congregational Church Cemetery.

The letters came to rest for nearly 150 years in the home of Ms Kelly. Albert is a maternal ancestor of Ms Kelly. The home was owned by Mr. Timothy Russell Palmer in the mid 1800s. Mr. Palmer was the father of Albert's wife. Albert and his wife were living in the Palmer home in North Branford as recorded in the 1880 U. S. Federal Census.

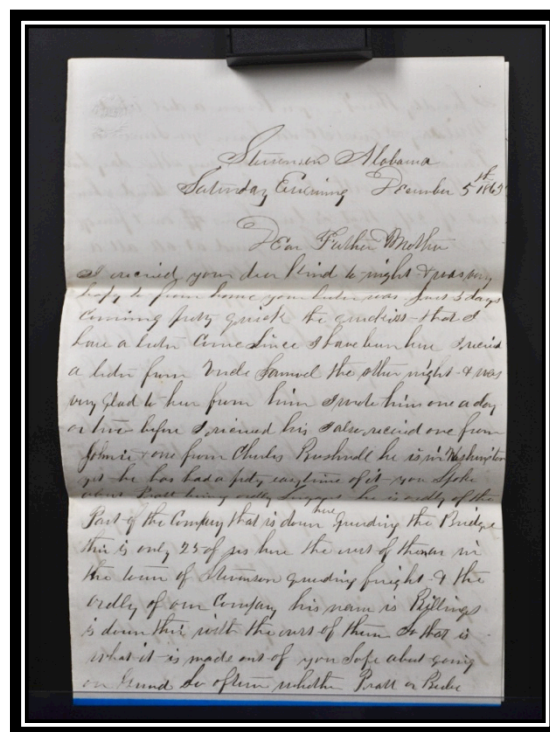

The North Branford Congregational Church Cemetery and Albert Uriah Platts' grave marker are shown below.

The Letters

An Example

We, Ms Kelly and the transcriber, suggest that the photographs shown above are those of Albert Uriah Platts and Clara W. Palmer probably significantly before their wedding in 1877 as they appear younger than ages 34 and 30. Of course it is possible that they are unrelated. In two of his Civil War letters [pages 11 and 17] Albert reports that he weighed 154 and 160 pounds. The photo above left appears to be consistent with that.

We believe the photograph below to be Albert long after the war. He has gained considerable weight. Note the ill-fitting uniform. Note also that there are Corporal Stripes on the sleeves, consistent with Albert's rank during the war.

All of the photos and drawings shown below in the body of this document were taken from the websites of The National Park Service, The National Archives and the Library of Congress and are in the public domain.

No doubt I have made any number of errors in transcribing these 73 letters. Any and all errors are mine. Whatever the errors I am certain that the essence of what Albert is trying to say is conveyed to the reader.

Dear Father & Mother

I received your leter last night & was very glad to hear fro you & that you was all well. it is very warm to day but pleasant. We have Just had an inspection & the Regiment is pretty well used up. One of Mr Gordmans Boys is wounded in the leg he is in the hospital Samuel Fargo is prisoner in Richmond. He was from Chester & a number other Chester Boys we have not heard from yet. We don't know whether they was taken prisiners killed or wonded. We are Still at Stafford but we have a good deal of Picket

duty to do now but I had rather do that than be in another Such a Battle as the one we have been in. I Suppose it is the hardest Battle that has been fought. I will tell you a little about how our Reg was Situated. Their was our Brigade consisting of our Reg the 123 NY Reg & the 143 NY & 3rd Maryland Reg we were in the Center of the Brigade the Rebles was about 30 rods from us & Some of our troops between us & the Rebles Well the Rebles drove those back & then they come up to us then was our time to fight they wold come up to our Breast-works & we drove them back & three times they tryed but we drove them back in front of our Breast-works, We cut down Some trees & Brush Just as thick as they could be the Rebles wold come up to the Brush & their they wold get tangled & we wold Shoot them down them Brush was completely covered with dead Rebles They Saw that could not get us out that way. So they drawed up this Battery of their Cannon & then they poured Grape & canister Shell & Railroad Iron in to us. & all of the Regts on our left & right broke & run, & it folded the other Reg but the 20th & there we were loading and firing our Battery could not Silance the Rebel Battery because our Reg was between our Battery & the Rebles Gen Williams Sent two or three orders to us to retreat back but the men were killed so that we did not get any orders at all, & their we were their was one poor fellow close to me a Shell came & took his leg off & another came & killed him instantly their they was dropping all around me Some tore all to pieces & So much noise & Smoke, OK! I tell you it was awful well pretty Soon the Rebles got on both sides of us & then the Lieut-Col told us to run & we did, & then the Rebles filed up on the Breast works & fired at us & their they was on both sides of us & in our rear & their it was when So many were killed, when I was a running their was one fellow Just – Stepping on a log & a Shell Struck him & killed him instantly I Saw another Shell Strike & tore three men all into pieces but we killed two to their one, Stone Wall Jackson is dead but I never want to See another Battle this was five days & nights that our men Slept a bit but I stood it first rate & am in tip top health I must close Pleas answer Soon for it does us a good deal of good to hear from home

Dear Father & Mother

I received your kind leter last night & was very happy to hear from you as it had been considerable of a Spell Since your last leter I had a leter from Col Spencer night before last & I was very glad to hear from him he said that Miss Wealthy was very bad off he thought it was doubtful whether She can recovered I also had a leter from Uncle Samuel & a Paper which I was very glad to receive it has been very warm down here long back the Regiment is Commanded by our Major his name is Buckingham he is from Bermingham & he is very Strict with us is most to much So the Boys do not like him much on that account he is good enough every other way Col Ross came to the Reg yesterday from Washington he came to Stay two or three days to see how the Reg was getting along he was wounded pretty bad he has to use crutches it Seemed good to See the old fellow again I presume you received the leter that I Sent you with his picture in it all of the Boys had one you did not Say anything about it So I do not know as you have got it yet the one that you received on Thursday I wrote Since that I hope you will get it Major Buckingham makes us drill from 7 o clock in the morning till 8 one hour then from three till half past four So you See he keeps us going pretty much all the while besides the Picket & Gard duty that we have to do if the old Col was in Command we Should not have to drill we have to get up in the morning at daylight & go to bed at nine o clock in the evening yesterday Morning we had Marching orders with three days rations to be ready in a moments notice it was rather Sudden & we are a

waiting expectantly every moment to receive orders to go they Say that the whole army of the Potomac is on the move we Shall probly know in a Short time how it is we have heard Considerable firing in the direction of Fredericksburg this morning but do not know what it is Some think that the Corps will not go in front this time as it done So well before & lost So many men I hope it may not but we cannot tell we had a speech from Gen Slocum the other day he commands the Corps he Said that he felt proud of his men he Said he never had a command that he thought So much of their is a great many think that the war will not last long & I hope it will not but can not tell how long it will last you would to know about the country it is first rate like Loudan Valley where you came I will Send Mother a leaf from old VA I do not know what it is called but it comes from old VA Pratt & Beebe are out on Picket to day So that there is no one in the tent except Stuckey & myself we are going to have beans for dinner to day if you will first call on us you Shall have Some when we get home we Shall not need any one to cook for us as we can do it ourselves we do all of our Baking now we had rather do it because we get more to eat we have a plenty to eat I am well and Stand it first rate Pleas answer immediately it does not make any difference if we are on the march I Shall get them just the Same

Dear Father & Mother

I have just received your leter this very night I was very glad to hear from home we are under marching Orders and have been for a week past we have orders to march in a moments notice but cannot tell when we Shall have to go likely enough we Shall not have to go for a week or two & we may have to go in a hour we do not know which way we Shall go can not tell anything about it I also received the Papers which you sent me I saw the piece which Capt Fish wrote There is not a word of truth in what he Said about the 12th Con he is Capt of the 14th Reg in the 2nd Corp I think but cannot be Sure I know he is not in the 12th I did not want him in either it is Said the 14th Reg done worst of any of Connecticut Regs I don't think much of his leter any way the Rebles Said that the main reason that we got whipped was because that our Officers was drunk & I think their was a good

deal in that I can let you know. Some of the Officers acted when they see that they are in danger they said Boys take of Yourselves & do the best you can that is the way some of [them] acted but I am happy to say that it was not so in our Regt the Officers went in as well as the Privates but you can tell which Corp ran and which did not as well as I can tell you as you have a chance to see more Papers than we do our Lieut Col has got back to the Reg and we are all very glad to see him he says that if we always do as well as we did then it is all that will be asked of us I wrote a letter to Johnnie the other day but have not Received any answer yet I Shall have to Stop now and take tea as it is ready We have not a very heavy supper tonight it is jam bread & Coffee to night we have a plenty [to] eat all the time no reason to Complain Although if we were at home we Should think it rather hard but we have got used to it you Spoke about Mr Gordmans Boys sending home a hundred Dollar I am Sure they ought to one of them has been a Cook for Major and Lieut Col and has done all of their washing and besides their Folks send them down Butter, Cheese, Cakes etc. and they sell them to make double on it

And there is one thing I am Sorry to say about Henry Gordman the one that you Bought the Blankets of he will steal and has been caught at it Several times and been brought before the Major that Blanket that you Bought of him he stole from the Hospital when he was sick it has been found & on the march from [Indian?] Valley to Fairfax Station he had five Blankets which he stole out of the Baggage Waggon and he sold them all for five dollars apiece & he also stole one of the Boys Pistols and sold it for 14 Dollars & the other night Johnny Trift had Some tobacco come from home and Mr Gordman Stole it out of his tent but he got caught at it & was brought before the Major what the Major done I can not tell you but one thing is he does not Cook for him now the Chester Boys say that he always had that name but Edward Gordman is as a honest Boy as ever walked the earth & I Should Suppose that he might have money but for one I had rather not have money than to get it that way he is not thought anything of in the Company but I hope you will not Say anything about it that it came from me because I do not want it Should come from me nor because I doubt the truth for I know it to be true but the next Payment I am going to Send Some 16 Dollars anyway I want to keep ten Dollars & calculate two every time we are paid off to Send home at least 16 dollars 26 dollars is what we are paid at a time I never have lost any money whatever you spent for my needles and thread although I have Spent a little for Tobacco which I Suppose is foolish way of Spending money I think it Some thing to burn it up

(on a separate smaller page)

you Spoke of Gambling Col Ross issued an order that if their was Gambling of any kind done in his Reg that the one that done it Should Suffer for it. Gambling is Strictly Forbidden this Order was issued last winter & has been obeyed & as for myself is Something that I know nothing about nor do I want to & their is no kind of Liquor Sold her nor has been I Suppose the officers have it but I do not See any of it you need not be afraid of my Gambling nor getting drunk but I must come to a close You Spoke about Albert Pratt promotion I do not See much abut it he was 4th Corpol & is now 3rd Sergeant & he wold not have been that if our 3rd Sergt had not been Sick & So Pratt took his place but if he Should come back to the Reg Mr Pratt wold have to Step out his being Serg made me 2nd Corp I do not wish to Prais myself at all but I Can learn him and he knows it true So you see how much he is promoted he had ought to know more about military than I do but he does not. you know I was sick a long time & of course I forgot Some but I Soon learned I have drilled the Company Some now, but I think I have made a pretty long leter this time I Suppose you know that we lost our knapsaks in the Battle but I did not have much in mine the most that I cared anything about was my Needles & Thread & a Picture of Miss E. B. you might Send me a few needles & Thread in your leter but I must close I am well & all right,

Dear Father & Mother

I received your kind letter last night and very happy was I to hear from home I believe that I think more of hearing from home than I did when I was in VA because I am so far from home we have got a nice place here and our duty is very light Col Ross has Command of Stevenson Joe Hooker put him in command & told him that he would stay here with his Reg this Winter & I think we shall be here a pretty long time I suppose that you have heard that Hooker has had a fight with the Rebs he has opened communications through to the front so that the cars got to Chatanooga & a steamboat goes there also he has drove the Rebels out of & off from Lookout Mountain he had the 11 Corp & the Second Division of our Corp that is Gen Greys

Division Gen Grey was wounded and his Son killed his Son was a Lieut Col Col Ross wold not have had this place if he had not had a good deal influence as he is a very influential man amongst the higher officers he has got a house he is a fixing up he has Sent for his wife She is a going to Stay here this winter we have all the wild game that we want we can out anytime & get a Possum Coon Rabit or wild hogs wild Turkeys Ducks on almost anything else we can wish for we go out to the Farmer & Stay all day they like to have us Come give us all we want to take will not Charge a Soldiers a cent for anything they Say that Alabama is for the Union & the Constitution the old Flag is what they want to live under & die under they Said that if the Union Army had come down through here before the Emancipation Proclamation was issued the Peple wold have flocked to us by the thousands that Proclamation they cant do they Say if it had not been for that the war could have ended before that every house we go into the Girls are carding wool or spinning or weaving every house has a Spinning wheel & Loom in it they Say that our Northern Girls do not have to work & they Say they did not before the war but now they are compelled to they Say they have less every thing they Say that the leaders of the South have misrepresented to the poor Class Peple & a great portion of the Peple are poor & most of them can not read & they Say the leaders went around the poor class preaching Seccession & telling them that it was the only way to save a man they Said that one Speaker Said that if we Seceeded that he wold drink every drop of blood that was Spilled & the Peple believed it but now they See the folly of it

It is a very warm day & darke the Boys are having Boxes Sent to them Pratt has Sent for one he Sent for it last week & I presume it has Started before this a number of the Boys have had them already it is perfectly Safe to Send them they are directed to Stevenson Alabama by Adams Express Company & they do not Stop till they get here they have an office in Stevenson So that it makes it handy & I wold like a box & if you could Send it it wold be a good time if you Should Send one I wold like a Jack Knife for it is Some thing that we can not get here without paying a great price & if you Send what you are a mind to there is nothing in clothing that I want without it is a pair of Stockings & thick Shirt you need not be afraid to Send it because you are afraid that I Shall not get get because I am Sure to I received the paper & Postage Stamps postage stamps are very scarce here I am well & getting along nicely

Dear Father & Mother

I received your kind letter Wednesday Evening & happy was I to hear from you as such is always being so far from home a letter seems better than it used to. I believe it has been pleasant to day but it is raining a little just now. It is very warm here except nights & mornings which is little cool. You wished to know what kind of homes people live in here. Well the greater portion of the people live in log houses. Then once in a while a man that is pretty well off he has a brick house but most all log houses. This is out in the country. In the town of Stevenson there is some good buildings. I presume that I wrote to you before that our company is about 5 miles from town guarding a railroad bridge. The houses that we live in are palaces to what most of the people live in here. The chimneys to the house are made of logs about 8 feet long that is what the back of the chimney consists of & the sides are logs about four feet long so that the chimney takes up all of one end of the house. The cracks are stoped up with mud & a stove they never saw. You spoke about the Madison boys frying cakes in pork fat that is an old thing with us. We have something to eat better than that we think & soft bread all we want. Yesterday was Thanksgiving & we had a Thanksgiving dinner a pretty good one we think for soldiers. Our Lieut invited Col Mosher & Chaplin up to take dinner with & it passed off very nice indeed. I will tell you our bill of fare – we had two roast pigs stuffed one roast lamb one lamb that we made stew of four roast chickens stuffed one baked opossum a ½ bushel of potatoes bread buisquet & butter pies & cakes & sausage coffee sugar & milk. Now I think that is doing pretty well for soldiers don't you. The Chaplin says he is going to put it in the New Haven Journal Courier so you get that paper in a week or two & please send it to me. I think I should rather have been home if I could have been. The things did not cost anything except the pies and cakes. People say this way that the

war is going to be ended this winter I hope it is So the Battle has already Commenced here Gen Grant has attacked the Rebles & is Completely Victorious & has drive the Rebs from every Position & Brag is on the run & Grant after them Prisoners are passing here Continually I think we was very luckey in not being in the Battle we are but 95 miles from them Col Mosher Says that we have had good luck for once the Second Division of our Corp is in the fight that is Grays Division they Say the Western troops & the Eastern troops are Seeing which can fight the hardest the Western boys do not like to have it Said that the Eastern Boys are the best fighters nor the Eastern the Western So they are going in to prove it a great many think this will be the last Battle that is if we whip them all though the fight & I think we have got a man that is not Easily Whiped that is Grant I hope this man will Soon end [the war] & I think it will I Shall be on the look out for the Box Soon I received the Postage Stamps that was in the leter I am well

I received your dear Kind to night & was very happy to your leter was just 3 days coming from home pretty quick thee quickest that I have had a leter come Since I have been here I received a leter from Uncle Samuel the other night & was very glad to hear from him I wrote him one a day or two before I received his I also received one from Johnnie & one from Charles Bushnell he is in Washington yet he has had a pretty easy time of it you Spoke about Pratt being ordly Sergent he is ordly of the Part of the Company that is down here Guarding the Bridge there is only 25 of us here the most of them are in the town of Stevenson guarding the freight & the ordly of our Company his name is Billings is down their with the rest of them So that is what is made out of you Spoke about going on Guard So often whether Pratt or Beebe I hardly think you know a deal about Miliitary I guess I could learn you Some a Private goes on Guard once every other day that is the case with Beebe he has to Stand 8 hours out of 24 that two hours on and four off& I do not have to Stand Guard at all all a Corprol has to do is to tell the man when to go on & when to come off & he replaced by Some one else I have to go on Guard once in four days & the

Sergant the Same So that it is not very hard work but I will not Say any thing more about the Guard now I don't want to learn you too much at once wait till the war is over & I come home & I will tell you about it more Grant is giving the Rebels fits down this way & So is Burnside giving it to old Longstreet fellows think this way that the Union will finish the war up they seem to be almost certain of it I hope So at any rate & think it looks So I see by a Nashville Paper that Joe Hooker was going to take Command of the Army of the Potomac again whether it is true or not I do not know Hooker has done some good fighting down this way there is no mistake about that but old Grant will make them step around he has drove them even 40 miles from Chattanooga already & how much further he will drive them I don't know deserters are coming in to our lines all the while & prisoners going up to the cars most every day I shall keep a look out for my Box now soon as I shall expect it along I can not think of much more to write news are rather scarce writing so often & being in the same place all the time I am well I have had something of a cold long back but am getting over it I presume you have received my picture before this let me know when you write for I want to know it got there safe

Dear Father & Mother

I received your Kind leter night before last & mighty pleased was I to hear from home I also received the Paper & HDK which is just what I needed I am rather tired we have to bild Brest works nights we can not build them days without getting Shot at by the Rebs we are So near them & we are getting nearer to them all the while the Rebs & Yanks are close together So near that when one Side Shows his head he is Shot at by the other So it becomes us to keep down as much as Possible the City of Atlanta is plain to our view our Corps is holding the Centre this time Hooker is not on the Flank for a wonder there is Some Flank Movements going on that is certain whereabouts Gen Sherman can tell better than I can Gen Hooker has left the army of the Cumberland & ordered to report to Washington for duty he came around to all of the Boys & he Shed tears like a Child when he left we miss him greatly he Says Boys if it is Possible my Corps Shall go where I go Gen Williams is in command of the Corps they can not let Hooker be

in one place long at a time they move him all around there is fighting on
Some part of the line every day their was Some Shot in the Breast works
close by us to day Atlanta is Strongly fortified large forts all around but I
think he will be Flanked out in a Short time & I hope we may have a Short
rest after that for the Army needs rest we have got to move out in to the

Dear Father & Mother

I received your kind leter last night & a Paper for which I am much obliged
I can assure you I came off the Skirmish line last night & found the leter &
Paper in Camp for me I can tell you it put me on my legs right away the
Skirmish line & Pickets is just the Same the Skirmish line is within 200
feet of the Rebs line on the Skirmish line we have pits dug in the ground
large enough to hold four men in each pit 4 men Stay in the pit 6 hours &
then are relieved for 6 hours by 4 other men when we go into the pit we
have to crawl on our hands & Knees if we Stand up it is almost certain
death & So we have to work in 24 hours once in three days when we got
into our pit we raise our head very cautiously to See if we can See a Rebel &
if one happens to have his head above the works he gets a dozen Bullets
fired at him & it is just so with us if one of us happens to get our head
above the pits he gets a dozen or more Bullets fired at him Some of the
Boys will get an old Cap & put it on a Stick & hold it above the works & the
Cap will be full of holes made by the Bullets So you See that it is not Safe
for us to Show our heads our main line is abut 300 yards from the Rebs
Bullets come in too the Camp all the time while I am writing Bullets are
whistling over my head we have to be very careful there is not a day
passes that Some one gets Killed or wounded yesterday their was one
Killed & two wounded & So it is day after day their has not been any

Battle for Some days but when there is it will be a hard one their may be one any moment if they come out & attack us they will catch it Gen Sherman is getting around their flank all the time Sherman is not a rash man he is Slow & Sure & I think that is the way we are receiving reinforcements Gen Slocum is coming up from Vicksburg you will remember he used to Command our Corps, the old 12th Corps it is Said he will take Command of the 20th Corps I hope it is So now Hooker is gon Slocum is a good General yesterday we drawed new Clothing we have a plenty to Eat & wear I am well it is very warm that man in Chester that lost his arm his name is Samuel Jagger I can not think of much more to write this time Pleas Answer Soon & oblige your Affect Son

Dear Father & Mother

I received your Kind leters to day one was wrote the 2nd of August & one the 15th & got them both the Same day So I think the first one must have been delayed in Some way leters do not come very regular at the present time we are living in the Same position we were when I last wrote you that is our Corps both wings of the army have Swung in the left wing is right in amongst the houses & they are all the time closing in on them our Corps Holding the Centre & being as near the Rebs as we can get without having a fight we occupy the Same position we did when I last wrote Hood has been reinforced I think & their lines are to Strong to be carried by Storm & therefore they will have to be flanked out in their line of works around Atlanta they have a fort once in 300 yds & their line is very Strong but they will have to get out of their in time that is pretty certain Sunday night Gen Killpatrick with 2 Divisions of cavely Started & went clean around Atlanta he went in on the right of our army & came out on the left they come in this Morning I Saw the Gen & his men myself they had been 3 nights & 2 days without any Sleep on one of the Sadle only to tear up the Railroad & destroy things they tore up the Macon Railroad & went 11 miles to Jonesville a town 7 miles below Atlanta & their they burnt up the town & a large amount of Suplys & other property the Rebs Sent a force of

Cavely after them to attacked them in their rear & a force of infantry in the front & Surrouded Killpatrick & the Reb Gen Sent in a flag of truce to Surrender but Killpatrick could not See it So he took the horse away from the one that brought in the flag & Sent him back without any answer & then he Massed his force & cut his way out he captured one piece of artillery & 60 prisiners he Said 200 will cover his loss Killed wounded & Missing & this Morning he come in all right a pretty good thing & I think Killpatrick is a Smart Gen their is one man Killed out of the Reg today of Com A there is Someone Killed or wounded out of the Reg every day that passes by the Rebel Sharp Shooters we are So near the Rebs that it makes it rather of a dangerous position you Spoke about the Sanatary Commission I think it is a good thing Especialy for the wounded & Sick but the able bodied & well do not get much from it very little but the Sick & wounded do we have a plenty to Eat & to wear but not much vegetables they can not get it in a Campaine as they can when the army lays Still I Supose our Reg has 11 months longer to Stay that is all I am well & getting along nicely I can not think of more to write this time Pleas answer Soon

Thursday September 1st 1864

Dear Father & Mother

I received your kind leter last night & indeed it was very wellcom the more leters we get the beter we feel you will See by this leter that we have moved last Thursday night we had orders to move they came in the night we Started about 3 o clock in the Morning where we was going we did not Know but we knew we was taking the back roads we Marched 6 miles to the River the first Division to one fort & the 2nd Division to another nothing but our Corps fell back to the River our Corps was told to hold the river at all Hazards & we have held it So far the Rebs attacked us on Saturday but they was repulsed & they fell back to Atlanta but while the Rebs was following us up they of course thought that the whole army was retreating back & they thought they could capture Some of us on the retreat but instead of the whole army retreating Sherman took all the rest of his

army 6 Corp & Marched 25 miles below Atlanta going to Macon leaving our Corp to guard the River the Rebel Gen found out what was going on & Started after in hot persiut Shermans Scouts reported that Hood was after Him with a large force Sherman immediately faced abut & built works all night & the next Morning Hood was on to him you will understand that Sherman is in the rear of Hood So that Hood has got to whip Sherman & drive him or he has got to leave Atlanta one or the other Hood charged Shermans lines 10 times the first day & at last account the fighting was going on as hard as ever the Rebs loss on the first day was reported at 35,000 Killed wounded & taken prisinor & ours at 15,000 we were in works the Rebs Charged the works which accounts for So much more loss on their Side but the fighting is Said to [be] terrible we are So far off we cannot hear the firing only once in a while we can hear a cannon our Corp is all the while Strengthening its Position for the Gen is afraid that if the Rebs cannot drive Sherman that they will throgh their whole force on our Corp & try to crush it & then get in the rear of Sherman & Consequently we are doing every thing to Strengthen our Position Gen Slocum took Command of our Corps Saturday the Same day the Rebs attacked us we are all glad to See him back he is a good Gen Shermans move is a bold move but we all think he will get Atlanta by it a Short time will tell either Sherman will get dreadfuley whipped or Hood will & we think Hood will there is a force of Rebs in our front all the while to oppose our going into Atlanta our Corps hapend to be luckey this time the reason is because it is So Small their is 6 Reg in our Brigade & in the whole 6 Regs there is only 1,030 men about the Same as our Reg when we left N Haven our Reg numbered one thousand men when we left N Haven the nights are getting cool & the days very hot I am well & getting along nicely they owe us 8 months pay now but I don't Suppose we Shall get it right away not until the fighting is over we hardly know how money looks it has been So long Since we have had any well I must close for this time & hoping to hear from you Soon I remain as ever your very

Dear Father & Mother

I received your Hind leter last night & hapy was I to be the reciepiant of a word from home well I Suppose you have heard of the Capture of Atlanta it is ever So Hood was Whiped out Generald & demoralized in my last leter I told you of the 20th Corp falling back on the River to hold the Ford while Sherman with the rest of the army operated in the rear of the Rebs the Rebs Suposing that our army was falling back from Atlanta had cars [railroad cars] running night & day to Agusta brining ammuniton guns in to Atlanta to follow up Sherman with & annihilate Sherman altogether as that is what they Said but first they Knew their Railroad was not in working order Something must be the Matter come to find out Sherman was around in their rear & had two or three lines of works across their Railroad & they had no communications Hood takes his army & goes down to whip Sherman & drive him back but instead of Whiping Sherman he Gen Hood gets one of the worst whipings he has ever had they had two days of hard fighting when Hoods army was routed & cut in two one part went one way & one part another & of course they had to leave Atlanta which they did in a great Hurry They burnt 4 car loads of ammuniton all of their large guns they destroyed & any amount of small arms of all descriptions they left 4 Engines our Corp entered the City on 2nd of Sept the City was full of Citizens & great many Rebel Soldiers which wold not go with [the] army Most of the Citizens Said they was glad our army had come in they had holes dug in the ground to Keep away from our Shells which they Said was Killing Some one every day They Eate & Sleep in those holes in the ground another of a poor way of living I Should think their was hardly a house in the whole City but what our Shells went through & a great many Set fire by the Shells & burnt down it is a City as large as Hartford it was a great place for making Shells & Powder it was a great business place but the factorys have gon now Gen Sherman has issued an order congratulating his men for their good Succeses on this Campagine its one of the best orders I ever heard read you will probly See it in print & then you can read I geas you will Say as I do Gen Sherman Says he has accomplished all he Expected to the Capture of Atlanta & now the army is a going to rest it is what they need very much & it is what they are going to have So Gen Sherman Says we Soldiers think that Gen Sherman is one of the Smartest Gens on record he has handeled his army nicely he is a very careful man Slow & Sure but he has drove the Rebs the most miles & the worst of Countrys of any Gen yet & we think him just as Smart as the next one any one to look at him wold think he was a Back woodsman there is no Show to him whatever he does not forget the poor Soldier under him he Speaks

Atlanta Georgia
Sunday October 16th 1864

Dear Father & Mother

I received two kind leters from you on Friday the 17th of the Month one of them was wrote the 27 of Sept & one from the 18 of Sept So that they had been made one month on the road but you may rest assured They was a most Welcom Missive when they did come I have not written for a month nearly until now the reason being their was no mail went any more than it come the reason being the Rebs are on our rear or at least they have been & have had the road cut for Some time So that nothing could come or go on the road the whole Rebel Army was in our rear Commanded by the Rebel Gen Beauregard Except a few cavalry in front of Atlanta but Gen Sherman watched their movements & when he thought they had got far enough he took all of his army Except the 20th Corps & went after them well he has had two fights with them & whiped them Severley both times Scattering all

over the County Capturing their Suplys they had only 5 days rations with them & Gen Killpatrick with his Calvery destroyed all of their Pontoon Bridges that they had to Cross the River with So that the Rebs can not get back without going a long ways they are Steering for Alabama Gen Sherman Telegraphed to Gen Slocum that he would not let even the Smallest number of them get back again So you See they are getting terribly Punished for trying to Stop our Communications & draw Sherman from Atlanta but Sherman had his eyes open to -- for them there is no other Corps nor troops here only ours Gen Slocum was ordered to hold the city & Strongly Fortify it these orders are being Strictly carried out Since the Rebs went South our Corps has bilt 19 Forts of the largest Size & a line of works to connect each fort each fort is to have nine Guns in it Our Corps is to Stay here all winter So that I think on the whole we are pretty lucKey we have nice winter quarters bilt the lines around the city is three miles in length & every house outside of that line & inside our Picket line is tore down & Fixed into Soldiers houses there is not a woman or Child in the City of Atlanta they have all been Sent off Gen Sherman does not believe in Suporting the Rebs Wifes & Children although it was rather hard to See them go leave their homes well they Should not have been Rebs then I think Gen Hood got about as good as he Lent when he wrote to Gen Sherman Concerning the Women & Children in Atlanta we have not heard any news from the North for a long time Since our Communications was cut until within a day or two I Suppose you was worried because you did not hear from me before but it could be helped we had not heard one word from Conn nor Seen a Paper nor anything of the kind for a month it Seemed a long time I can tell you but they was good when they did come I received the Paper Postage Stamps & more that you Sent for which I am greatly obliged we have not been Paid off yet but Expect to be Soon most Ten months Since we have been Paid we was on half rations for a Spell but Gen Sherman Issued an order that the Troops in Atlanta bilding Fortifications Should have full rations & theirfore we do I am well & getting along nicely I wrote to John before the road was cut but have not heard from him yet

Dear Father & Mother

I received a Kind leter from you last night which indeed was a very welcom Missive we are So anxious to receive leters & Papers from home & frinds as we were when in Rebeldome & are more anxious to go home than we was then for we Know the fighting is over & we want to go home we have nothing now to occupy our time well the Grand review is over I Suppose to look on it was the Grandist Military display ever Known but to us Soldiers it was nothing new we were heartly glad when it was over So that we could go into our last Camp you will Probly read the whole account Gen Sherman was looked upon as the greatest Military leader of the age even Mothers took their little Children & held them up as he was Sitting on his horse to Shake hands with the Gen. the ladies covered him with garlands & wreaths of flowers & his horse also on the whole it was a most Splendid afair the President & Gen Grant even looked on with Surprise at the great Body of Soldiers Passing before them Gov Buckingham was their & a great many Conn Peple was their to witness the Scene I wish you could have been there their has been a great injustice done Gen Sherman in reporting things between him Sherman & the Rebel Gen Johnston Gen Sherman Says is not on his account that he cares what is Said but the injustice it has brought on his brave command Gen Sherman has his whole army to back him up the very thought is even absurd that Some are trying to ruin & make him out a traitor but that they can never do how foolish when a man has done what he has in putting this Rebellion he has ever conducted this war out of truly Patriotic Motives & the man Says he is not trying to rob him of the Glory which is Justly his due the thing is coming out all right Gen Sherman is not afraid of Gen Halleck or of E M Stanton Gen Halleck Knowing that he himself is thought nothing of is now trying to ruin the best Gen in the united States but he will come for that in doing it the whole thing will fall on the Shoulders of Halleck & Gen Sherman will come out Brighter in the Eyes of the world if Possible than he was before

what I have wrote is every Soldiers Sentiment in his army we have followed him & we know the man he loves us & we love him yesterday I went over the whole Capitol Building it took me 4 hours to go over the whole building the whole thing inside & outside is made of Marble [the Capital Building was being constructed at this time] Their is a great many things to See & it well pays one to go over it the Govemint is now ready to pay off & discharge every Soldier in the two armies now at Washington & as Soon as the officers of the Regs can make out their Papers & Square up with the Govemint we Shall go home it will probly be a week or two before we Shall get home you Say I have never answered your question in regard to Sate it was not because I was afraid to but I had forgotten it we have corresponded ever Since I left Home & I do now & I presume Shall as long as I Stay in the Service a Soldier always likes to have a plenty correspondents I have corresponded with a number of Ladies in Essex for just the Sake of receiving leters I have had Several anonymous leters in regard to Sate Stating that she did not Consider herself always as a responsible young lady but I have paid no attention to it either way & who was the other of the ladies I dont Know but I Should Say it was from Some lady by the writing whether it was done to make hard feelings or whether they had occasion for it is more than I can tell time will develop Pleas answer Soon & believe me ever your Afft Son

Dear Father & Mother

I now take this opportunity of writing you a few lines as I assume this will be the last letter I shall write before I am in Conn. I received a letter from you two days ago & one from John. We shall all probably be home or at least in New Haven the latter part of this week Friday or Saturday not before. We are not going to get any money until we get home at NH. I suppose it is all for the best but then we would like a little going home or as soon as we get to NH so to get some little things that we might want. You know we want to look pretty well when we come home. We have all got new clothes. I have got two grey shirts & two pairs of drawers two pairs of stockings a new pair of pants cap & shoes & a blouse. I suppose we will not get any money under two or three days before we get there. There is not a man in our camp got one cent of money. It is not very often the case. I spent the last cent I had yesterday for a paper but we can get along with [what] we got to NH. I have not heard anything about Herbert Rose & did not know as he was here. I saw him in Raleigh the day we left & have heard nor seen anything of him since. You spoke about Sherman's men fighting. There is no such thing. Mr Beckworth's paper did not tell the truth nor we have not heard anything of our going to Texas here. That is not so. It is very warm here. We have a good camp & plenty to eat. You may look for us in NH the last of this week. I am well.

1880 Federal Census – North Branford

This document clearly shows that Albert and Clara had a daughter, Eunice, born in 1878. Additional census documents show that Eunice was married to Edward B. Stone and widowed by 1910. Her husband died on September 23, 1908. In 1910 Eunice was living with her mother-in-law in North Branford on property now covered by Lake Gaillard. In 1920 Eunice was living on North Street with her mother. Eunice died on December 18, 1930 and is buried in the Bare Plain Cemetery. Apparently Eunice did not have any children and so that branch of the Platts line ended there.
